

HCLTech is a next-generation global technology company that helps enterprises reimagine their businesses for the digital age. Our technology products and services are built on four decades of innovation, with a world-renowned management philosophy, a strong culture of invention and risk-taking, and a relentless focus on customer relationships. HCLTech also takes pride in its many diversity, social responsibility, sustainability, and education initiatives. Through its worldwide network of R&D facilities and co-innovation labs, global delivery capabilities, and a global team of 225,000+ diverse and passionate people across 60 countries, HCLTech delivers smarter, better ways for all our stakeholders to benefit from technology, including the Fortune 500 and the Global 2000.

With expertise in Digital, Engineering and Cloud, we deliver solutions that fulfill the traditional, transformational, and future needs of clients across the globe. Our worldwide network of 210+ Delivery Centers and 60+ Innovation Labs embodies the progress-driven mindset that paved the way for today's HCLTech.

HCLTech offers a great opportunity for tech-savvy, enthusiastic individuals who are seeking to accelerate their careers in Information Technology. We are inviting applications for recent IT graduates with degree in B.E/B.TECH-M.E./M.TECH. (CSE, IT, EEE, ECE, Mechanical, Bio-Medical, Biotechnology etc.) You will be responsible for developing, implementing & enhancement of applications. You will be a part of a team which focuses on customer experience, Digital solutions, Secure DevOps and security and automation.
